

Highlighted Restoration Division Projects

2018

Carnegie Museum Parking Garage

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Carnegie Museums of Pittsburgh

Date of Completion: Summer 2017

Project Description: CWC was awarded a contract with the Carnegie Museum to remove and replace two structural beams on their precast parking facility. The beams were situated in the elevator areas and were a very critical piece to the parking structure.

Youngstown State University

Industry: University

Location: Youngstown, OH

Project Owner: Youngstown State University

Date of Completion: Fall 2018

Project Description: CWC was awarded a contract as low bidder to work on the M60/M30 Parking Garages at YSU. This project included a large scope of full depth precast slab repairs, precast stem repairs, partial depth walls and columns. After the concrete repairs were performed, they were caulked and traffic bearing waterproofing membrane was placed.

Meadville Market Square Parking Garage

Industry: Government

Location: Meadville, PA

Project Owner: City of Meadville

Date of Completion: Summer 2018

Project Description: CWC was awarded a contract as low bidder to work on the Market Square garage for the City of Meadville. The scope of this project included a large amount of partial depth slab repairs, Structural Steel painting, deck coating, placement of sealer and line striping.

O'Hara St. Parking Garage

Industry: University

Location: Pittsburgh, PA

Project Owner: University of Pittsburgh

Date of Completion: Summer 2018

Project Description: CWC was awarded a contract as low bidder to perform concrete repairs to the O'Hara garage for the University. This project consisted on concrete joist and slab repairs.

Shiloh Parking Plaza

Industry: Government

Location: Pittsburgh, PA

Project Owner: Pittsburgh Parking Authority

Date of Completion: Fall 2018

Project Description: CWC was awarded a contract as low bidder to perform parking garage repairs and renovations at the Shiloh Parking Plaza in Mt. Washington. This project largely included the demolition and replacement of full depth precast support beams and double tee stems with a smaller amount of partial depth concrete slab repair. CWC then placed sealer and deck coating over the top exposed level.

Galleria of Mt. Lebanon

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Continental/Galleria L.P.

Date of Completion: Fall 2018

Project Description: CWC was awarded a contract as low bidder to perform extensive overhead concrete repairs to the helix areas and in the Electrical Vault room at the Galleria of Mt. Lebanon. This project required an experienced contractor to keep the mall operational while these critical repairs were performed.

The Landmarks Building

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Forest City Realty

Date of Completion: Winter 2018

Project Description: CWC was awarded a contract to work on the vehicle drop off lane at The Landmarks Building in Station Square, Pittsburgh, PA. The scope of this project included the removal and replacement of buried waterproofing system and topping slab. CWC made full and partial depth repairs to the structural slab in delaminated areas and repainted the supporting structural steel.

Hampshire House Parking Garage

Industry: Residential

Location: Avalon, PA

Project Owner: The Hampshire House at Avalon

Date of Completion: Fall 2018

Project Description: CWC procured a contract to perform a multi-year repair and maintenance plan for The Hampshire House at Avalon. The scope of this project includes full depth hollow-core plank repairs, placement of traffic bearing waterproofing membrane and annual washdown and waterproofing surveys.

Meadowpointe Office Park

Industry: Commercial

Location: Wexford, PA

Project Owner: North Meadows Drive LP

Date of Completion: Fall 2018

Project Description: CWC received a contract to perform exterior balcony repairs at the Meadowpointe Office Park. The repairs on this project consisted of full depth hollow-core plank repairs, new railing fabrication and installation, and waterproofing installation.

Compunetix Parking Garage

Industry: Corporate

Location: Monroeville, PA

Project Owner: Compunetix, Inc.

Date of Completion: Fall 2018

Project Description: CWC received a contract to perform repair work followed by yearly maintenance of the Compunetix parking garage. CWC performed partial depth concrete slab repairs to the post tensioned facility, along with, pressure washing, sealing, and line striping of all levels of the parking garage. CWC is scheduled to perform yearly washdowns, deck coating and line striping in the following years.

Pittsburgh International Airport

Industry: Government

Location: Pittsburgh, PA

Project Owner: Allegheny County Airport Authority

Date of Completion: Fall 2018

Project Description: CWC has worked with the Pittsburgh Airport for many years to maintain their parking facility. The 2018 scope of work included recoating of the driveways on the southern side of the parking garage with a traffic bearing waterproof membrane, as well as, total replacement of a couple structural beams supporting the precast double tees. CWC worked diligently to complete this project in a timely fashion with a quick turnaround.

Heinz Field Gold Lot 1

Industry: Sports Facility

Location: Pittsburgh, PA

Project Owner: Sports and Exhibition Authority of Pittsburgh and Allegheny County

Date of Completion: Fall 2018

Project Description: CWC received a contract to perform installation of a traffic bearing waterproof coating system on the exposed roof level of Heinz Field Gold Lot 1. CWC worked with all parties involved to have this project completed with a tight schedule during the Pittsburgh Steelers Football season.

2017

Indiana University of Pennsylvania

Industry: University

Location: Indiana, PA

Project Owner: Indiana University of Pennsylvania

Date of Completion: Summer 2017

Project Description: CWC was awarded a maintenance contract from IUP for the next 3 years. Each Spring, CWC performs pressure washing and documentation of all leaks, caulking of exposed cracks and repairs to spalled concrete areas. Line striping is then performed.

Station Square, Pittsburgh, PA

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Forest City Realty

Date of Completion: Summer 2017

Project Description: CWC was awarded a contract to place a traffic bearing waterproofing membrane at the Station Square parking garage on the top two levels. CWC prepared the slab by removing line striping, bubble gum and shot blasting of the surface. On the prepared slab, CWC then caulked all exposed cracks, placed deck coating and painted new parking stalls and directional arrows.

Stanwix St. Parking Garage

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: InterPark

Date of Completion: Summer 2017

Project Description: CWC was contracted to repair a conventionally placed post tensioned structural beam in the Stanwix St. parking garage. CWC shored the existing beam, performed concrete demolition, stressed new post tension cabling and then formed and poured back new concrete.

Ft. Duquesne and 6th Parking Garage

Industry: Government

Location: Pittsburgh, PA

Project Owner: Public Parking Authority of Pittsburgh

Date of Completion: Spring 2019

Project Description: CWC was low bidder on the Ft. Duquesne and 6th parking garage repair and renovation 2017. CWC was able to perform a large scope of work on this project consisting of: Full and Partial Depth Concrete Repairs on slabs, columns, ceilings and beams, Structural Steel Reinforcement, Painting, Installation of traffic bearing waterproofing membrane and Installation of a new façade system. CWC is working well with the PPA and DESMAN to turnover a successful project that should extend the lifetime of the garage.

Carnegie Museum Parking Garage

Industry: Commercial

Location: Non-Profit

Project Owner: Carnegie Museums of Pittsburgh

Date of Completion: Summer 2017

Project Description: CWC was awarded a contract through the Carnegie Museum to repair traffic membrane areas that were allowing water to leak through the deck. CWC worked with the museum to be efficient to minimize parking closures.

Forbes Parking Garage

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: InterPark

Date of Completion: Fall 2017

Project Description: CWC was awarded a contract as low bidder for repair work on the 3rd and 4th Level of the Forbes Parking garage. This repair included full and partial depth slab and rib repairs, wall and column repairs and stairwell repairs. After the repair work was completed, the parking levels were recoated with a traffic bearing waterproof coating and restriped.

Pittsburgh International Airport

Industry: Airport

Location: Pittsburgh, PA

Project Owner: Allegheny County Airport Authority

Date of Completion: Fall 2017

Project Description: CWC has worked with the Pittsburgh Airport for many years to maintain their parking facility. The 2017 work included recoating of the driveways on the northern side of the parking garage with a traffic bearing waterproof membrane, as well as, total replacement of a structural beam near the rental car area. CWC worked diligently to complete this project in a timely fashion with a quick turnaround.

Shaw Building Garage

Industry: Commercial

Location: Monroeville, PA

Project Owner: Elmhurst Group

Date of Completion: Fall 2017

Project Description: CWC works with at the Shaw Building yearly to maintain their parking facility. This year's work included joint sealant and deck coating repairs.

Monongahela Valley Hospital

Industry: Hospital

Location: Monongahela, PA

Project Owner: Monongahela Valley Hospital

Date of Completion: Summer 2018

Project Description: CWC was awarded a contract for repair of structural beams at the Monongahela Valley Hospital parking garage. The beams in need of repair were of a post tension design. CWC abandoned the old PT cables and provided an external PT cable solution to minimize cost and disruption to the traffic flow in the garage.

2016

UPMC Shadyside Hospital – Centre Avenue Garage Repairs

Industry: Hospital

Location: Pittsburgh, PA

Project Owner: UPMC

Date of Completion: March 2017

Project Description: CWC was the low bidder for the repair and preventative maintenance package at the Shadyside Hospital Garage. The project included extensive full depth and beam repairs, with a full waterproofing and façade package. CWC worked closely with the hospital staff to ensure the safety standards of working near a hospital were met and that there was no disruption of service to their patients during the repairs.

Station Square Garage

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Forest City

Date of Completion: August 2016

Project Description: CWC was the low bidder on the coating project for levels 2 and 3 of the existing post tensioned garage. We phased the repairs to continue traffic flow to the floors above and removed and replaced all joint sealant, place a new waterproofing membrane, and re line striped both floors.

Walden Galleria 3 Level

Industry: Commercial

Location: Cheektowaga, NY

Project Owner: Walden Galleria Mall

Date of Completion: November 2016

Project Description: CWC was called to review a deck that had a recent structural failure and provide a design/build repair program to get the garage back to operations as quickly as possible. CWC was contacted because the adjacent garage we had built for the mall in 2006 was in perfect shape and was not in need of any repairs, the owners thought that if we could build them that well, we could certainly bring their 3-Level deck back to operation. Over 5 months we removed and replaced all of the drains, performed shallow and full depth repairs, externally reinforced failed precast t-stems, and caulked and coated the entire deck. The project

experienced minimal downtime and was brought back to a maintainable state for the owners prior to Black Friday.

Station Square Garage – Post Tension Repairs

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Forest City

Date of Completion: September 2016

Project Description: CWC performed full depth repairs at the expansion joint on the first floor of the garage. The supported slab structure is a post tensioned deck, so the cables had to be exposed, their pressure locked off and then new live ends placed and stressed. The project was performed quickly with minimal interference with the operations of this busy garage.

Shaw Building

Industry: Commercial

Location: Monroeville, PA

Project Owner: Elmhurst Group

Date of Completion: September 2016

Project Description: CWC has implemented a multi-year repair program for this precast garage. This year was our 8th phase and we performed a continuation of our original plan which called for full depth repairs, structural connection repairs and waterproofing of the deck.

Palisades Mall Garage

Industry: Commercial

Location: West Nyack, NY

Project Owner: Palisades Mall

Date of Completion: November 2016

Project Description: CWC was selected as the design/build contractor to repair the steel frame, conventionally reinforced slab garage that services the mall. The repairs included removing and replacing the roof level wearing slab and split slab membrane as well as partial depth repairs and deck coating on the lower levels.

Walden Galleria – West Garage

Industry: Commercial

Location: Cheektowaga, NY

Project Owner: Walden Galleria Mall

Date of Completion: November 2016

Project Description: CWC performed asphalt and buried membrane waterproofing repairs to the Walden West Garage.

Holyoke Mall – Red Parking Deck

Industry: Commercial

Location: Holyoke, MA

Project Owner: Holyoke Mall

Date of Completion: November 2016

Project Description: CWC was selected as the design/build repair contractor for the Holyoke Mall Red Deck. The project included removal and replacement of the asphalt wearing surface as well as the buried membrane waterproofing. Miscellaneous repairs included new drains, partial depth repairs, expansion joints and curb repairs.

Destiny USA Mall Garage

Industry: Commercial

Location: Syracuse, NY

Project Owner: Destiny USA Mall

Date of Completion: September 2016

Project Description: CWC was awarded the multi-year design/build repair project for the Destiny USA Mall Garage. Our first phase included repairs to the drainage slopes to prepare for future phase repair work.

Heinz Field – Gold Lot 1 Garage

Industry: Sports Facility

Location: Pittsburgh, PA

Project Owner: Sports and Exhibition Authority of Pittsburgh and Allegheny County

Date of Completion: August 2016

Project Description: CWC was low bidder on the precast joint waterproofing, exterior precast waterproofing and the penetrating sealer scope for the entire new garage.

Charleston Area Medical Center

Industry: Hospital

Location: Charleston, WV

Project Owner: Charleston Area Medical Center

Date of Completion: Winter 2016

Project Description: CWC was low bidder on CAMC Memorial Hospital Employee Parking Garage Repairs 2015. Project is expected to include annual scopes that will resolve all current conditions throughout the employee garage in order to extend the lifespan. CWC is working with Walker Parking Associates.

King's Daughter Medical Center

Industry: Hospital

Location: Ashland, KY

Project Owner: King's Daughter Medical System

Date of Completion: Spring 2016

Project Description: CWC performed a free annual inspection of the garage and notified owner of potentially hazardous condition of existing inverted T beams. King's Daughter Health Systems contracted CWC to provide a design/build repair of all inverted T beams and concrete repairs on roof level.

Butler Memorial Hospital

Industry: Hospital

Location: Butler, PA

Project Owner: Butler Memorial Hospital

Date of Completion: Summer 2016

Project Description: CWC was low bidder on a waterproofing repair project at Butler Memorial Hospital.

2015

Allegheny General Hospital Garage

Industry: Hospital

Location: Pittsburgh, PA

Project Owner: Allegheny Health Network

Date of Completion: Fall 2016

Project Description: CWC was low bidder on the AGH Hemlock Street Garage, repairs include waterproofing elements and painting of all the structural steel.

Thomas Memorial Hospital

Industry: Hospital

Location: Charleston, WV

Project Owner: Thomas Memorial Hospital

Date of Completion: Summer 2015

Project Description: CWC was low bidder on the parking garage restoration project for Thomas Memorial Hospital. Project included performing all necessary repair items and waterproofing required throughout the entire garage.

Summers Street Parking Deck

Industry: Commercial

Location: Charleston, WV

Project Owner: BB&T Trust Company

Date of Completion: Summer 2015

Project Description: CWC was low bidder on BB&T parking garage repairs and waterproofing contract. Project included a design/build aspect for CWC to identify necessary repairs needed on the roof level in order to accept a new Traffic-Bearing Deck Coating.

University of Kentucky 2015 Garage Maintenance

Industry: University

Location: Lexington, KY

Project Owner: University of Kentucky

Date of Completion: Fall 2015

Project Description: CWC was low bidder on University of Kentucky's 2015 annual repair contract. Contract included various scopes on all 8 of UK's owned garages. CWC worked with the architect/engineer, THP Limited, to successfully complete concrete and waterproofing repairs throughout the campus.

Charleston Town Center-Waterproofing

Industry: Commercial

Location: Charleston, WV

Project Owner: Forest City Enterprises

Date of Completion: Winter 2015

Project Description: CWC was low bidder on Charleston Town Center's 2015 waterproofing project. Project included performing all necessary concrete repairs on roof levels of garages A & B, Installation of all new joint sealants, and application of a new Traffic-Bearing Deck Coating system on 180,000 square feet.

WV Lottery HQ Renovations

Industry: Government

Location: Charleston, WV

Project Owner: State of West Virginia

Date of Completion: Winter 2015

Project Description: CWC was low bidder on WV Lottery Headquarters parking garage repairs. CWC was contracted by the GC, Maynard C Smith Construction. Contract included closure of the entire 650 car garage during the scheduled work. Scope of work included; Replacement of 924 double-tee bearing pads with new Neoprene pads, replacement of all joint sealants in garage, application of new Traffic-Bearing Deck coating on 3 levels and concrete sealer on the remaining garage.

West Penn Hospital

Industry: Hospital

Location: Pittsburgh, PA

Project Owner: Allegheny Health Network

Date of Completion: Summer 2015

Project Description: CWC was low bidder on the West Penn Hospital garage repairs. The garage is a hybrid single stem precast with cast in place topping including post tensioning on the roof level as well as an addition that includes a steel frame, metal deck with post tensioning. CWC repaired the delaminated sections of the decks, repaired/replaced broken post tension cables, new joint sealant and roof level deck coating.

Claybourne Street Garage

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: McQuarters Realty

Date of Completion: Summer 2015

Project Description: CWC was awarded the design/build contract to remove the deck section and replace with a more durable structure.

Pittsburgh International Airport

Industry: Government

Location: Findlay Township, PA

Project Owner: Allegheny County

Date of Completion: Summer 2015

Project Description: CWC removed and replaced expansion joints and expansion joint covers at the Pittsburgh International Airport.

U.S. Steel Tower Garage

Industry: Corporate

Location: Pittsburgh, PA

Project Owner: The 601W Companies

Date of Completion: Summer 2015

Project Description: CWC was awarded the design/build contract to replace 35,000 SF of slab on grade at the USX Tower. The project consisted of removing 1,700 tons of material from 3 stories below the street elevation and pumping concrete over 700 feet. The mix design was tested and researched to maintain proper ratios through the pipe and into the hot environment.

Primary Health Network Garage

Industry: Hospital

Location: Sharon, PA

Project Owner: Sharon MSF LLC

Date of Completion: Summer 2015

Project Description: CWC was awarded the remaining contract from 2013 through the new ownership of the garage. Key components of this project were structural repairs and waterproofing that included installation a roof level deck coating.

Shaw Building Garage

Industry: Commercial

Location: Monroeville, PA

Project Owner: Elmhurst Group

Date of Completion: Fall 2015

Project Description: CWC performed joint sealant and deck coating work to the precast deck.

Virginia Mansions Parking Deck

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Virginia Mansions Condominium

Date of Completion: Winter 2015

Project Description: CWC was selected for a design/build proposal to remove the deck section and install a new more durable deck on the existing structural steel. CWC worked with Atlantic Engineering Services to provide the owner with a long-term solution to their parking needs.

2014

Rivers Casino

Industry: Casino

Location: Pittsburgh, PA

Project Owner: Rivers Casino

Date of Completion: Summer 2020

Project Description: CWC was awarded the Rivers Casino maintenance contract for the next 5 years. CWC washes down the deck each spring, documents, and provides a leak free system each year with repairs as required. The most important aspect of any garage is repeat and ongoing maintenance.

University of Kentucky 2014 Garage Maintenance

Industry: University

Location: Lexington, KY

Project Owner: University of Kentucky

Date of Completion: Fall 2014

Project Description: CWC was low bidder on University of Kentucky's 2014 annual repair contract. Contract included various scopes on all 8 of UK's owned garages. CWC worked with the architect/engineer, THP Limited, to successfully complete concrete and waterproofing repairs.

Ashland Community College-Phase 1

Industry: University

Location: Frankfort, KY

Project Owner: Commonwealth of Kentucky

Date of Completion: Fall 2014

Project Description: CWC was low bidder on Ashland Community & Technical College Phase 1 Exterior Facade repairs & renovations contract. The State of Kentucky awarded the contract. Project included Window sealant replacements, vertical concrete repairs, masonry repairs, and painting of the main building.

Charleston Town Center

Industry: Commercial

Location: Charleston, WV

Project Owner: Forest City Enterprises

Date of Completion: Winter 2014

Project Description: CWC has performed annual design/build repairs to the Charleston Town Center's two garages, (over 2,000 spots), for the last 10+ years. We perform annual inspections and build the scope of work based on immediate needs & owner requests. 2014 focused on Concrete Column repairs and Carbon Fiber repairs.

Ashland Community College-Phase 2

Industry: University

Location: Frankfort, KY

Project Owner: Commonwealth of Kentucky

Date of Completion: Winter 2014

Project Description: CWC was low bidder on Ashland Community & Technical College Phase 2 Exterior Facade repairs & renovations contract. The Commonwealth of Kentucky awarded the contract. Project included window sealant replacements, vertical concrete repairs, masonry repairs, and painting of the Science and Administration buildings.

St. Mary's Hospital Parking Garage

Industry: Hospital

Location: Huntington, WV

Project Owner: St. Mary's Medical Center

Date of Completion: Fall 2014

Project Description: CWC was awarded the contract to perform concrete repairs on the roof level and apply a new Traffic-Bearing Deck Coating on the Roof level.

Royal York Garage Renovations

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Sterling Land Company

Date of Completion: Spring 2014

Project Description: CWC was low bidder for select repairs to one of the oldest, and still family owned, apartment buildings in Pittsburgh. CWC did structural repairs per the engineer's design, and removed and replaced the exterior ramp.

Allegheny Valley Hospital Garage

Industry: Hospital

Location: Kittanning, PA

Project Owner: Allegheny Health Network

Date of Completion: Summer 2014

Project Description: CWC was low bidder on a comprehensive repair program at the Allegheny Valley Hospital in Kittanning, PA. The repairs required some of the precast double T sections to be lifted off of the roof and new precast double Ts installed. Column repairs, beams repairs, wall repairs, removal and replacement of all joint sealant, sealer application and a roof leveled deck coating were also installed to get AVH to a maintainable state.

Allegheny Center 4 Garage

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: Allegheny Health Network

Date of Completion: Summer 2014

Project Description: CWC was awarded the design build contract for the repair of the precast field placed topping garage. Buried conduit led to cracks and water and chloride intrusion. CWC removed and replaced joints, repaired the top surface as well, and completed full depth repairs to precast decks and beams.

Forbes Ave Garage

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: InterPark LLC

Date of Completion: Summer 2014

Project Description: CWC was low bidder on the Forbes garage repairs for InterPark. Repairs included concrete removal and replacement as well as waterproofing.

South Side Garages

Industry: Retail

Location: Pittsburgh, PA

Project Owner: ALCO Parking

Date of Completion: Summer 2014

Project Description: CWC was awarded the contract to provide a water tight condition to the South Side Garages.

Allegheny General Hospital Garages, Critical Repairs

Industry: Hospital

Location: Pittsburgh, PA

Project Owner: Allegheny Health Network

Date of Completion: Winter 2014

Project Description: CWC was awarded the Critical Repairs contract for Allegheny General Hospital's James St. and Hemlock St. Garages. Repairs included fixing structural elements posing a safety threat as well as fixing post tension cables.

11 Stanwix Street

Industry: Commercial

Location: Pittsburgh, PA

Project Owner: 11 Stanwix LLC

Date of Completion: Winter 2014

BUILDING EXCELLENCE AT EVERY LEVEL

Project Description: CWC was awarded the contract to repair the parking deck and provide waterproofing aspects to the garage.

2013

City of Sharon, PA Parking Garage

Industry: Government

Location: Sharon, PA

Project Owner: City of Sharon PA

Date of Completion: Fall 2013

Project Description: CWC was awarded the repair project for the Sharon Parking Garage by the City of Sharon. CWC performed comprehensive budget pricing after the project was awarded to get the vital structural and maintenance issues resolved within their limited budget.

Charleston Area Medical Center (CAMC)

Industry: Hospital

Location: Charleston, WV

Project Owner: Charleston Area Medical Center

Date of Completion: Fall 2013
